Summary

Self-taught software developer, working eight years as a freelance web developer and four years working full time on corporate websites for Zions Bancorporation. I am currently working on a Masters in Software Development from The University of Utah to refine my expertise in the field further. Highly motivated individual with a passion for learning new skills and abilities.

Experience

Software Developer

Discover Leadership Training • Freelance   08/2014 - Present

Planned, designed, developed, and managed several company-owned websites.

- Methods for users to create accounts, email confirmation, and log in with authentication.
- Methods for users to purchase online products, including the implementation of several third-party APIs.

Software Developer

ConsultNet • South Jordan, Utah   08/2014 - 09/2018

Worked with the client (Zions Bank) on design and development for the corporation's internal websites.

- Creation and management of interactive forms that employees used to input client information into internal databases.
- Adobe Analytics integration to track user engagement with internal websites.
- Migration of many internal websites from HTML to Microsoft SharePoint.

Communications Officer

Zions Bank • Salt Lake City, Utah   03/2019 - 01/2020

Creation of digital content for both internal and external engagement. This work included creating graphic and video content for the bank's social media channels, blogs, emails, and other internal and external communication channels.
